

Trent Hills Family Health Team is now part of the new Ministry of Health and Long- term Care's **Health Care Connect Program**. This program connects people without a regular family health care provider to physicians, in their community, who are accepting new patients.

The first step is to register with Health Care Connect.

Once registered, Health Care Connect will assign you a Care Connector, a nurse, who deals with all health care providers in the area.

If a member of our family health team is able to take on patients, we will contact you to set up an appointment to meet that physician.
