

Trent Hills Family Health Team – MEDICAL STUDENTS & CLINICAL CLERKS

Dr. Sue-Chue-Lam, CMH General Surgeon, demonstrates suturing with 2010 Rural Medical Week participants

Clinical Clerks

Trent Hills Family Health Team can accommodate clinical placements for Clinical Clerks depending upon availability of space/time. Opportunities may be available at the Warkworth clinic with Dr. Brett Jamieson and at Campbellford Memorial Hospital Emergency Department with Dr Norman Bartlett.

Inquiries should be made by the host university and will require an application through ROMP (Rural Ontario Medical Program).

Rural Medical Week

In co-operation with the Trent Hills Physician Recruitment and Retention Committee, THFHT has been involved in hosting eight successful Rural Health Week programs. These ROMP initiated events take place every spring and give up to 10 first year medical students a one-week activity-packed look at rural medicine.
