

*To patients of the Trent Hills Family Health Team,*

*Due to the ongoing concerns surrounding CoVID-19, the need to protect patients and staff, and the requirement to practice social distancing in general, we are taking appropriate precautions and only scheduling visits for patients that absolutely must be seen due to these exceptional circumstances. Going forward, in almost all cases, engagement with your physician, nurse practitioner, and all other providers will be carried out over the phone or virtual platform. We apologize for any inconvenience this may cause, but given the severity of the current pandemic, it is essential that we move forward with such precautions to ensure that we do what's best for the health of our patients, staff, providers and the community in general.*

*Please see above tab (patient information) for more information. Thank you!*
